Bangalore

Nov 2022 - Present

HRLYTICS PRIVATE LIMITED || Nov 2022 - Present Front-End Developer Key responsibilities:

- Developed a comprehensive HR technology analysis tool focused on recruitment, skill profiling, talent profiling, and human analytics. The project aimed to enhance HR productivity by leveraging modern technologies and methodologies.
- Collaborated with a cross-functional team to conceptualize, design, and implement the application.
- Utilized React for the frontend development, creating an intuitive and user- friendly interface for HR professionals.
- Implemented the backend using Django, providing robust server-side functionality for data processing and analysis.
